

EMBRACE EVERY DETAIL OF YOUR WORLD

LIKE MILLIONS OF WEARERS, CHOOSE VARILUX LENSES

A new world...

Today, everything has changed. We live in a 24/7 connected world, where multitasking is part of our normal life. With our behaviours evolving, our visual needs are also different to what they used to be. Our posture and the way we look at things have changed.

Everything that matters happens within arm's reach and that's why your near vision and what you can see between 40-70cm is so important.

Acknowledging today's new visual needs, the Varilux team of experts have developed the new generation of Varilux lenses, Varilux X series™.

Powered by its breakthrough new Xtend™ technology, Varilux® X design™ extends your vision like never before.

Extended vision

Varilux® X series™ is the best universal Varilux® progressive lens allowing you to seamlessly capture every detail within arm's reach with high precision, as well as beyond.

You will enjoy outstanding sharpness, continuous vision and fluidity from near to far.

Varilux® X series™ lenses dramatically reduce head movement so you don't have to find the sweet spot.

Inspired by you, powered by more than 55 years of innovation

Varilux® research and development team puts you first, using a unique process named LiveOptics™. It combines the latest optical research with observation and testing by glasses wearers in their daily lives.

To ensure your entire satisfaction, Varilux® X series™ lenses were conceived with 2,742 glasses wearers across the world. Varilux® new lens generation gets stunning results through this process.

Leader since 1959

Varilux® invented the first progressive lens and has become the reference at the forefront of research and development.

1 lens = up to 30 patients

Making a visible difference for your vision in your everyday life.

Every 4 seconds

A pair of Varilux® lenses is sold around the world**

**Based on sales volume in 2015 (Internal source).

VARILUX
— PROGRESSIVE LENSES —

Today, Varilux® lenses are sold in more than 100 countries, giving millions of people the gift of seeing clearly at all distances.

Satisfaction guaranteed

All Varilux lenses are covered by an adaptation guarantee, which means that in the unlikely event you are dissatisfied with your Varilux lenses in the first 60 days, your optician will replace them with a suitable alternative.
